

IN THE UNITED STATES PATENT OFFICE

Serial No. 09/611,073 :
Filed: 7/6/2000 :
Invention: Bank Card Terminal Cover : Art Unit 2876
Inventor: Katsanevas :
Examiner: Lee, D.I. :

SIXTH AMENDMENT

Commissioner of Patents
Washington, D.C. 20231

Sir:

Responsive to the telephone conference with Examiner Lee on 4/7/04, please amend the above-entitled application as follows:

In the Drawings

Substitute the attached formal drawings complying with the requirement for formal black and white drawings. .

In the Claims:

Claims 1 through 8 were previously cancelled in the Third Amendment.

Amend Claim 9 to read as follows:

9. (four times amended) A bank card terminal cover for protecting and encasing bank card terminals adapted to be placed on non-integral separate support surfaces and having exterior exposed card reading slots and keyboards pervious to liquids, grease, and dust, and electrical connections, comprising:

- a. a rigid, crush resistant, liquid, dust, and grease impervious top having
- b. a plurality of rigid, crush resistant, liquid, dust and grease impervious sidewalls which define an open bottomed interior chamber sized and structured to fit about and not contact the bank card terminal container ~~and its sidewalls~~ such that the cover and sidewalls are supported by the non-integral separate support surface to direct forces, liquids, dust and grease coming into contact with the cover away from the bank card terminal and onto the independent non-integral support surface not apart of the bank card terminal; said sidewalls
 - i. extending sufficiently to contact the non-integral support surface
